WELCOME TO G-MOBILI!

“

**THE SECRET OF OUR SUCCESS?
EXPERTISE, YEARS OF
EXPERIENCE AND PROFESSIONAL
HUMILITY.**

G-Mobili is the international brand of Garzon Bútor Kereskedelmi Kft. It is an expert in the design of aesthetic and ergonomic spaces. With seventy years of experience in furniture manufacturing, Garzon Group of Companies offers its customers and business partners expertise, high quality and comprehensive interior design services and quality wood and metalworking capacity.

We have established our market leadership by successfully delivering more than 15,000 m2 of interior design work to our clients each year. Our partners appreciate our customer-focused approach, our versatility and our professional solutions.

WE HAVE BEEN RUNNING SUCCESSFULLY FOR ALMOST 20 YEARS

“

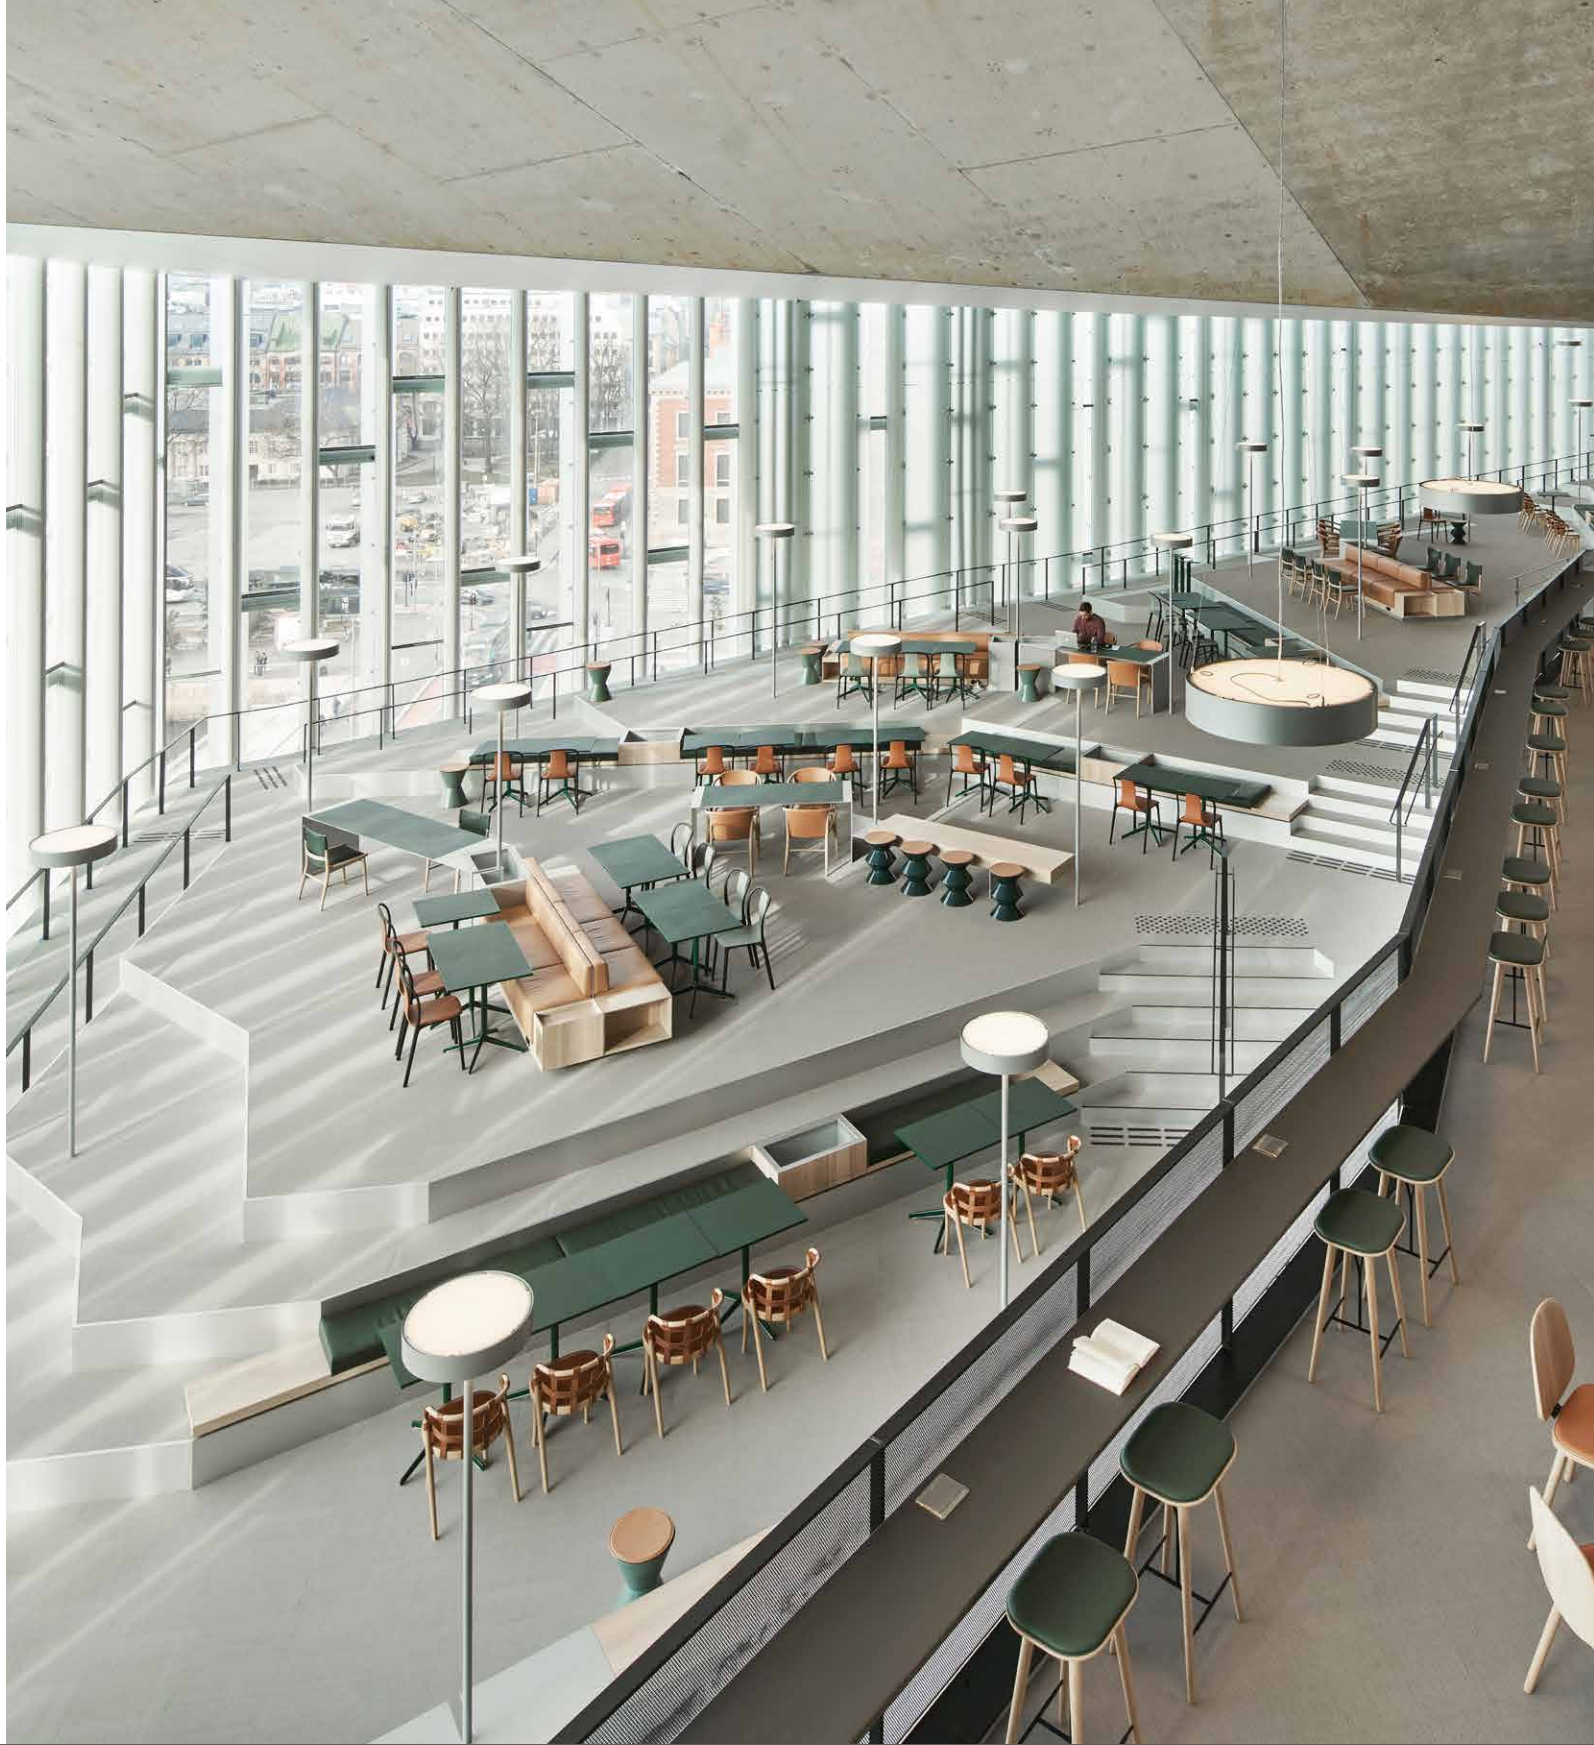

**WE HAVE NO TEMPLATES,
ALL OUR WORK IS
UNIQUE!**

For us, professional experience, tradition and research and development (R&D) are essential for successful projects. That's why we carry out hundreds of researches, analyses and studies in the fields of ergonomics, design and interior planning every year, to provide our partners with the quality advice they need to ensure the success of their interior design and furnishing projects.

Our company does not specialise in a single work process, style direction or project type. Our strength is diversity. Over the past decades, we have successfully designed and implemented both two-person offices and office complexes with hundreds of workstations. At the same time, the world of theatre interior design projects and castle and museum reconstructions are among our company's most important references.

Whether it is a football stadium, a hotel, a European concert hall or a healthcare or educational institution, we are happy to undertake the high-quality interior design and construction of a wide variety of buildings.

2004

Garzon Bútor Kereskedelmi Kft. started its independent operation as a member of the Garzon Group of Companies.

2006

Our company was awarded its first contract worth several hundred million Euros, coordinating the renewal of the Esztergom Theological College.

2008

In Kolozsvár, Romania our subsidiary has been established. Our yearly income reached 7,000,000 €.

2010

In Pécs, the European Capital of Culture, we carried out the interior design of three important institutions at the same time.

2012

Our first steps into the Western European export market, our first order was the 102-room Hotel Planai**** in Schladming, Austria.

2014

In the Austrian public procurement market, we won the 3-year furnishing tender for hundreds of post offices of the Austrian Post Office.

2019

We participated in the interior design works of the Puskás Arena and the renovation of the Csiky Gergely Theatre.

2020

In our Budapest showroom, we offer our partners a modern design environment catering to all their needs

OUR STRENGTH IS COMPLEXITY

When it comes to interior design and furnishing projects, our main focus is to provide the most complex solution tailored to the specific needs of our clients. To provide a complete service to our clients, we have developed and operate three main areas of expertise.

COMMERCE

Our commercial activities are carried out in our central furniture studio in Budapest, as well as through our branded showrooms and resellers in many parts of the country. In addition to our domestic sales, we also trade successfully in our export markets.

CUSTOM DESIGN AND MANUFACTURE

Unique wood and metal furniture is what makes the spaces we design and furnish truly special. Our technological background, our modern production equipment and the professionalism of our colleagues enable us to design and manufacture small series, high quality, custom-made products.

COMPLETE IMPLEMENTATION

Our mission is to provide our customers with a complex solution that best suits their individual needs. From design, through manufacturing, to on-site installation, we strive to do everything to meet our client's needs.

OFFICE SERVICES

OFFICE AUDIT

We are the experts when it comes to office space! During the audit (full survey and analysis), we provide optimal implementation ideas, taking into account the results of the general assessment and focusing on the user's objectives.

OFFICE RESEARCH

We use our decades of experience as interior designers and contractors to analyse the data from our surveys. In line with the Client's requirements in terms of space and cost optimisation, we formulate our proposals, which go a long way towards achieving ergonomic and functional aspects, serving and supporting the Client's organisational and operational objectives.

DESIGN AND VISUALISATION

Our design solutions to our clients' ideas and needs are best presented in the clearest, most transparent way by producing high-quality 3D visual designs. This service has become one of the most popular and important preparatory elements of our office services in recent years.

MOVING AND STORAGE

In our experience, moving is often a difficult task for our clients to organise and manage. We offer a fast and professional removal service! Any storage needs that may arise are handled in our logistics centre under secure conditions.

OUTFIT SOLUTIONS

Quality and variety without compromise! It is of paramount importance that the office environment we design and build is inspiring and pleasant. Our office outfit solutions are characterised by trendy design and harmonious customisation of spaces.

• FITNESS ROOMS • OUTDOOR SPORTS EQUIPMENT • PLAYGROUNDS

WE CARE OF OUR EMPLOYEES IN SAFE WORKSHOP

“

PERSONALITY BUILDING IS DEVELOPING OUR SKILLS!

We are proud of our Safe Workshop (Védett Műhely) initiative, which aims to employ our disabled colleagues in a safe environment. However, we aim to do much more than just “working relationship” in the everyday sense. Our mission is to make all employees sensitive to and accepting of this issue and to build bridges between the worlds of people with and without disabilities.

SOCIAL RESPONSIBILITY

“

WE CAN ONLY BE WINNERS WHEN OTHERS WIN WITH US!

According to our mission statement and our company’s internal values, we create value through our social responsibility. That’s why we embrace initiatives that not only serve the well-being of our natural and social environment, but also our development objectives and long-term competitiveness. Our aim is to integrate social and environmental objectives into our business objectives in such a way that economic success can be combined with social and environmental benefits resulting in a win-win situation.
